

GV-IA1330 Version History

Firmware V1.01 2026-05-12

New:

- Support for GV-QR1352 QR code readers within GV-Cloud Access Control integration

Fixed:

- Issue with synchronizing daylight-saving time (DST) from GV-Cloud Access Control in specific months
- Issue with a device restart when clicking “Save” in the Edit Device window of GV-Cloud Access Control
- Issue where default Door Sensor input setting was wrongly set to NC
- Issue with live view errors after using Web plugin in Windows 11 environment

Modified:

- Addition of a note “Host Code is required for live view and intercom features.” to the GV-Cloud setting page
- Automatic restart mechanism for Device Restart updated
