UA-R500F2 IP Camera Version History

Firmware V1.02 2023-01-30

New:

- Support for GeoVision DDNS server (GEO_DDNS)

Fixed:

- Connection failure using the PPPoE IP address
- Issue of Unknown Error message displayed on GV-Edge Recording Manager when connecting to the camera with accounts other than System Administrator

Modified:

- Audio decoding type set to G711U by default
- Special characters supported for the Sender field on the Email Configuration page of the Web interface

Firmware V1.01 2022-04-01

Fixed:

- Issue of falsely displaying the connection failure message on UA-SNVR when the camera is connected to UA-SNVR via Private protocol and when the incorrect username or password is entered
